

# Federal Candidate: Lake Shore Pledge

---

**I will not** ignore the devastating impacts of the 2017 flooding of Lake Ontario.

**I will do** everything possible to protect Ontario lives (*citizens and emergency responders*), homes, businesses and communities from the devastating impacts of flooding and will rapidly implement effective policies in flood prevention, mitigation, preparedness, response and recovery.

**I will** work with all governments, conservation authorities, rate payers' associations and lakeshore citizens to ensure our provincial shoreline is restored and risks from **Climate Change** and **Plan 2014** are mitigated.

**I will** recognize the unfair economic burden **Plan 2014** presents to the private citizens and municipalities of Ontario, while other stakeholders (like hydropower) benefit.

**I will** work with all levels of Canadian and United States government to ensure sufficient funding mechanisms are in place to offset the damages caused by **Plan 2014**, as set out by the 1909 Boundary Waters Treaty (Article VIII) - **protection and indemnity**.

**I will** work with all levels of Canadian and United States government to ensure the **expeditious review and/or repeal of Plan 2014**.
